Kirk,

Here is our vision of what the new sidewalk will be. We are waiting for dimensions until Alliant Energy move the guy wires at which we may have to have a slight jog in the sidewalk on the east end. Let me know if you have any questions.

The owner at 234 South 4th Street asked for a credit on his water bill due to he had to fill his pool three times . . . I gave him your card and explained the procedure that he had to prove it didn't go down the sewer. Just to give you a heads up if he calls you to be put on the agenda.

Anyway, here is the back story, his proof is he has a police report because he claims his neighbor climbed over the fence and would let the water out of his pool.
Let's just say I am a little skeptical.

He said the pool size is 18 x 48 , 5800 gallons, and he had to fill it three times.

Jeff Kallas and Myself, looked at this property, the homeowner did not make the appointment,
we observed water moving through the meter while no was present.
Brandon Kaufman and myself met the property owner and observed the hot water heater was running and bypassing through the valve
this valve discharges to the crawlspace into a gravel area and not the sanitary sewer.
My recommendations would be to credit sanitary cost of quarter two and three 2016 bills.
Also, the homeowner must have the bypass valve replaced by a licsenced plumber.

Average water usage with sanitary for a quarter is 52.5 Units, resulting in 174 Units used without sanitary charge.

RE: MCO Contract Extension and Increase, 2017

Contract Extension

The Village of Winneconne hereby agrees to extend its contract with MCO and all of its provisions. The contract will be extended from January 1, 2017 to December 31, 2017. The current terms and conditions will remain in effect.

2017 Contract Increase

We have reviewed MCO's contract with the Village of Winneconne and its provisions for contract increases in accordance with the CPI-U index. The terms for contract increases on the base contract amount provides for a minimum increase of 2.50%. At this time we do not feel it is appropriate to increase the contract per the minimum amount provided. For 2017, we propose the contract be increased by an amount of 2.0% or $3,031 for a base contract amount of $154,589. Contract increases on our health and liability insurances are based on the actual amount charged to MCO. Efforts to control or reduce the cost of MCO's health insurance are an ongoing process. With the current uncertainty in the health insurance market, we are estimating a 10% increase to our current health insurance rates on December 1, 2016. With the new base contract and with the new health and liability insurances, we are looking at a total contract amount for 2017 to be $194,370. Below is a summary of these changes:

	Expiring 2016 Contract	New 2017 Contract	% Change
Base Contract	$151,558.00	$154,589.00	2.0%
* Health Insurance	$ 32,307.48	* $ 35,538.23	10.0%
Liability Insurance	$ 4,242.24	$ 4,242.24	0.0%
Total Contract Amount	$188,107.72	$194,369.47	3.3%

* - Estimated

We hope this proposal meets with your approval and ask that your authorized representatives sign this proposal as provided below.

Thank you for your trust in us and for the opportunity to be of service to the Village of Winneconne.

Very truly yours,
